

**Holiday Park
Park & Recreation District**

5401 Holiday Park Blvd.
North Port, FL 34287

October 31, 2022

Dear Owners,

I wanted to get a letter out to all of you who are not in residence at Holiday Park. We are knee deep in the cleanup and renovation of the park. Unfortunately, there are quite a few owners who are not here and don't seem to have a caretaker here to clean up their properties. It is imperative that you get your home cleaned up within the 2-month timeframe so we can get paid back for debris cleanup through FEMA. We are down to 30 days left and we need to get all debris curbside by November 28, 2022.

After your cleanup of your property and the evaluation of your damage, if your home is required to be torn down, this is the time to do it with group pricing.

There are two companies at this time who have special pricing for our residents for removal of their units. One is Graber Construction who can be reached at 941-378-2133, they're pricing is dependent on size of home.

Also, we did get an excellent price from Wessel Construction for removal of units that need to be demolished. They are charging our homeowners \$6000 per unit, but it needs to be paid up front. If you choose to use Wessel Construction, you can get the demo paperwork from the office and send your check to the park office with the completed forms; make the check out to Holiday Park. This is a pass-through expense that goes directly to the contractor.

There are other vendors available to provide this service but the pricing is higher on an individual versus group basis.

If you do not take care of this personally before, **November 28, 2022**, the cleanup costs would be your responsibility. We want to help our residents to have the cleanup covered by FEMA. Please address the work regarding your home ASAP.

Thank you,

Sincerely,

Brett Burmann

Holiday Park District Manager
