Donna Mill's Resignation Statement 12/16/2022

I wrote this out because I get emotional and might forget points I want to make.

First, I am appalled by the behavior of some board members. We had a great manager and lost him.

Make no mistake about this, he did not quit because of the job or the hours of work or the burden of Ian we placed on him. He quit because of certain board members. I don't need to mention names you know and so do we. This is not the first employee to quit for this reason. But it needs to be the last. If you don't have the integrity to step down for the good of this park then I would like to know the procedure for impeachment, recall, or whatever it is to get a trustee off the board. You want to see a petition for how the people of this Park feel that's fine too. I can do that. **BUT THIS NEEDS TO STOP. AND NEED TO STOP NOW.** I hereby resign.
